WORK EXPERIENCE

Bytup Technologies

Software Development Engineer I

Bengaluru

July 2023 – Present

- Built **role-based dashboards** for Agents and Admins, delivering tailored interfaces that improved workflow efficiency and reduced support overhead.
- Developed **property listing management**, **real-time inquiry tracking**, **lead management**, and **analytics** modules using **Redux Toolkit** and **TanStack Query**, cutting API re-fetches by optimizing cache invalidation.
- Built scalable **admin tools** — role management, dynamic settings, analytics dashboards, and content moderation — integrated with **REST & Open APIs**.
- Created **SEO-friendly dynamic and nested routes** in Next.js with API-driven content rendering, boosting organic discoverability.
- Wrote **unit and integration tests** with Jest & React Testing Library, improving component reliability and cross-browser compatibility.
- Collaborated with design and backend teams to translate Figma mockups into pixel-perfect, accessible front-end features.

Software Development Intern

Sept 2022 – Jun 2023

- Built responsive web pages using **React.js**, **Tailwind CSS**, and **Ant Design**, contributing to production-ready features.
- Optimized codebase by replacing repetitive HTML templates with **JSON-driven dynamic rendering**, improving maintainability.
- Integrated **RESTful APIs** to display real-time dynamic content on dashboards.
